# Take Back Control:

## Modern Solutions for Bladder Leakage and Pelvic Prolapse

Featuring a team-based approach with advanced robotic surgery, minimally invasive procedures, and non-surgical therapies

### Take Back Control

Come hear from experts, **Vincent Cooper, MD**, **Derek Friedman, MD** and **Elizabeth McAndrew, MD** on modern solutions for bladder leakage and pelvic prolapse.

### What You'll Learn

- Learn why leakage and pelvic prolapse are common, treatable conditions
- Minimally invasive procedures for stress incontinence
- Management of urinary frequency and urge incontinence
- Behavioral and surgical interventions for pelvic floor prolapse
- Learn how pelvic floor therapy can strengthen and restore function with Morgan Torgesen, MS, OTR/L from outpatient Physical Therapy
